

Dear Yash,

The FPA is interested in your involvement as President of Digital Media. The mission of Digital Media is to create video, audio, and alternative media content to grow the audience of the FPA. Your responsibilities in this position will be as follows:

1. Attend one weekly, digital meeting with all presidents of the FPA branches. This meeting occurs at 8:00 PM EST, on Mondays.
2. Organize at least one weekly meeting with your entire branch. This includes volunteers from foreign countries.
3. Understand the mission of your branch and do everything in your power to forward that mission.
4. Create plans for your branch so that your volunteers and the Operations branch understands your activities.

You are given full sovereignty in your branch, but also resources from any of the other branches if need be. If you need something from another branch, please reach out to that branch's president.

We also hope that you understand that the FPA is not for college. That said, it will provide a number of opportunities, these are as follows:

1. Salaries once the revenue streams prove solid. These revenue streams are from the following properties:
 - a. Sponsors from FPA Digital Learning Content.
 - b. Publishing from FPA Games.
 - c. Formation and Scheduling from the Charter Program.
2. Connections that will benefit you for the remainder of your business or professional careers. These connections are as follows:
 - a. Partner corporations through FPA Games, Learning, and Working Groups.
 - b. Individual connections and speaking opportunities through the Charter Program and Working Group.
 - c. Personal control of the technology that we develop, which is valuable for your future post-employment, consulting or founding positions.
3. Continuous opportunity to partner and work with the FPA. Through any future companies or consultancies that you may own, we will work with you to ensure your success.

Once you are part of the FPA family, we treat you like family for life. Apart from these opportunities, the FPA is doing the following within the next three *months*:

1. Adding over forty (40) new schools from Maine to California to our chapter charter program.
2. Launching an ad-free learning platform that will enable anyone to learn how to code by themselves for free.
3. Continuing the creation of educational content around our videogame, developed by Preponderous Software (and in partnership with Unity Technologies), which will launch on Xbox, Nintendo Switch, Playstation, iOS, Android, MacOS, Windows, and Linux.

We hope that these terms work for you. If they do, please sign below.

Cheers,
William McGonagle

I am totally stoked about joining the FPA!
